What is PyData?

PyData : Conference Mission

- PyData is a gathering of users and developers of data analysis tools in Python.
- The goals are to provide Python enthusiasts a place to share ideas and learn from each other about how best to apply our language and tools to ever-evolving challenges in the vast realm of data management, processing, analytics, and visualization.

PyData : Conference Mission

- We aim to be an accessible, community-driven conference, with tutorials for novices, advanced topical workshops for practitioners, and opportunities for package developers and users to meet in person.
- A major goal of the conference is to provide a venue for users across all the various domains of data analysis to share their experiences and their techniques, as well as highlight the triumphs and potential pitfalls of using Python for certain kinds of problems.

CONTINUUM

ANALYTICS

Headquarters:	Austin, TX
Description:	Continuum Analytics provides Python-based data analytics solutions and services for organizations to analyze, manage and visualize big data.
Founders:	Peter Wang, Travis Oliphant

PyData Berlin Conference

PyData Berlin 2015

May 29-30

PyData is the home for all things related to the use of Python in data management and analysis. It brings together Python enthusiasts at a novice level and includes Tutorials and corresponding talks as well as advanced talks by experts and package developers. The conference not only focuses on the application of data science tools but also on underlying algorithms and patterns. After a very successful PyData Berlin 2014 hosted at the BCC we are thrilled to announce PyData Berlin 2015, this time taking place at Betahaus Berlin.

Registration is now open using Eventbrite.

We have now opened our CFP and are looking forward to your contributions.
